

ANZTCT Quality Managers & Scientists Spotlight Dinner

Kindly supported by Syndax and Ideagen

As part of the 2026 ANZTCT Annual Scientific Meeting, Quality Managers and Scientists are warmly invited to attend the inaugural **ANZTCT Quality Managers (QM) SIG Education Series Spotlight Dinner**.

This special event marks the official launch of the QM SIG Education Series and will provide an opportunity to connect with colleagues, hear about plans for the year ahead, and explore a topic of significant interest across the cellular therapies community: **electronic quality management systems (eQMS)**.

The dinner will be facilitated by the ANZTCT QM SIG Fundraising, Events and Education Working Group and will feature:

Welcome and Introduction

Kathleen Anastasas

Quality Manager: Oncology, Haematology and TCT, Perth Children's Hospital

An introduction to the QM SIG Working Group, its objectives, event planning activities and sponsorship initiatives.

QM SIG Education Series 2026–2027

Catherine Martin

Project Manager – Blood Transplant and Cellular Therapies, Cancer Services, Wollongong Hospital

A review of member survey outcomes, key priorities for the year ahead, and the top five educational topics identified by the ANZTCT quality management community.

Spotlight Presentation

Planning for the Implementation of an Electronic Quality Management System:

Navigating the Many Facets of a Cloud-Based Solution

Michelle Trevisin

FACT Project Officer, Clinical Haematology, Peter MacCallum Cancer Centre and The Royal Melbourne Hospital

Michelle will share practical insights and considerations for organisations planning the implementation of a cloud-based electronic quality management system, including lessons learned, key challenges and opportunities for success.
